**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Continued Examination Under 37 CFR 1.114*

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/03/09 has been entered.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 3-4, 7-8, 11-12, and 17-19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The independent claims 3 and 4 recite the limitations "An **automated** method for compensating financial asset service providers comprising: identifying a service provider who is responsible for at least collection of a plurality of payments from a debtor to a creditor in connection with a financial account related to at least one loan and for making a plurality of payments to

the creditor; and determining a financial asset services value to be paid to the service provider as a percentage of the principal and interest paid in connection with the financial account, and **wherein the preceding steps are implemented by a computer, comprising at least a computer processor.**" The independent claim 17 also recites the limitations "An automated method for structuring a financial asset service agreement wherein fees collected in servicing a financial asset related to at least one loan are based upon a percentage of both the principal and interest paid in connection with the financial asset; and wherein the preceding step is implemented by a computer, comprising at least a computer processor." The specification as originally filed does not teach that the method steps recited in independent claims 3, 4, and 17 are automated and can be implemented by a computer, comprising at least a computer processor. The examiner searched the length and breadth of applicant's specification, but failed to find a single paragraph where support for these limitations is provided.
